

**N3389. Safety Assessment**

Entergy Corporation's Arkansas Nuclear One (ANO) received superior ratings in three of four areas during the U.S. Nuclear Regulatory Commission's (NRC's) recent Systematic Assessment of Licensee Performance (SALP). Plant operations and plant support areas continued to reflect superior safety performance, and engineering improved from a 2 rating to a 1. The maintenance area which was rated superior during the previous SALP period was rated as good and assigned a category 2 rating.
