

BNL ALARA CENTER**Processes and Practices Related to Occupational Dose****ID:** 1002**ALARA COMMITTEE****Keywords:** ALARA COMMITTEE; OPERATIONAL AND MAINTENCE TECHNIQUES**Description:**

The evaluation of some ALARA techniques and dose reduction modifications require the combined knowledge and expertise that can only be provided by a multidisciplined forum. ALARA Committees have been formed at numerous utilities to review plant design, operating and maintenance activities to ensure the development of improvements that will reduce exposure and the spread of radioactivity to as low as is reasonably achievable.
