

Jim Holian

Jim Holian is currently an Assistant Vice President and Senior Meteorologist at Science Applications International Corporation. He graduated from Penn State in Meteorology with a BS in 1982 and MS in 1984 and began working in the commercial nuclear industry. He spent 11 years with NUS Corporation and joined SAIC in 1998. Jim has spent the last 25 years designing and installing meteorological systems, auditing meteorological and air quality programs, and teaching meteorological and radiological dose seminars at nuclear plants throughout the U.S. Jim joined NUMUG in 1993 and first served on the Steering Committee from 1994-1996 before agreeing to return to the Committee in 2008.
