

NRC Regulatory Highlights & Insights

Steve Garry
U.S. Nuclear Regulatory Commission, NRR

ABSTRACT

An NRC update will be provided on the following topics:

- TI 2515/185 follow-up to NEI-GPI groundwater inspection results (ML14086A644)
- NRC inspections for the Decommissioning Planning Rule (10 CFR 20.1406 and 20.1501)
- Updated List of Plans with Leaks and Spills on NRC website
- NUREG/CR-2907 Effluent Summary Reports
- Plans for allowing Electronic Data Submittal of RG 1.21 effluent data
- NRC work with EPA on 40 CFR 190
- National Academy of Science cancer study near nuclear facilities
- Explanation of Individual vs. Member of the public (MOP)
- NRC revision of RG 4.13 Environmental Dosimetry for ANSI/HPS 13.37

Paper presented at the 24th Annual RETS/REMP Workshop, June 24-26 2014, Savannah, GA.
